

Management & Operations

College of Business

Description

Management and Operations deals with the planning, structuring, and controlling of organizations; leading and motivating employees; managing teams; resource allocation and utilization, and the control of quality. A major in Management and Operations provides the skills necessary for ensuring the efficient and effective operation of all types of organizations. WSU's Management and Operations faculty form close relationships with students, bring current research into courses, and provide career guidance. Typical starting salaries may range between \$35,000-\$55,000.
