

## **Appropriate Use Policy Statement for Faculty and Staff Web Pages**

WSU Vancouver faculty and staff may maintain work-related web pages on the WSU Vancouver web server, which is a state resource. Faculty web pages may reflect course, research, and service related interests.

Staff pages may reflect professional and job-related interests.

A minimal reference to personal interests (i.e. family) is acceptable. If faculty or staff maintain personal home pages on a public Internet Service Provider (ISP), they may include the URLs to their personal home pages on their professional WSU page.
